

SUBJECT SPECIFIC INSTRUCTIONS

- This Assessment has sections as below. Candidates are expected to attempt all the sections within time allotted to each section.

Groups	Items	Duration in Min
Numerical Ability	20	25
Reasoning Ability	20	25
Advanced Quantitative and Reasoning Ability	14	25
Verbal Ability	25	26
Advanced Coding Easy	1	35
Breaktime		1
Advanced Coding Medium	1	55
Total	81	192

Group Name	Section Name	No. of Items	Duration per Question
Verbal Ability	Sentence Completion	20	25 Seconds
	Instruction	1	25 Seconds
	Passage Recall	4+4	120 Seconds (30s read, 90s write (the text will not be displayed after 30 seconds of reading))
	Instruction	1	15 Seconds
	Email Writing	1	540 Seconds

- Sentence Completion instructions are as follows:** Please type one word that best fits the meaning of the sentence. Type only one word. You will have 25 seconds for each sentence. Click "Next" when you are finished.
- Passage Recall instructions are as follows:** You will have 30 seconds to read a paragraph. After 30 seconds, the paragraph will disappear from the screen. Then, you will have 90 seconds to reconstruct the paragraph. Show that you understood the passage by rewriting it in your own words. Your answer will be scored for clear and accurate content, not word-for-word memorization. After 90 seconds, your work will be saved automatically. **You need to read the passage and recreate it in your own sentences.**
- Email Writing instructions are as follows:** Read a description of a situation and write an email addressing the issues described in the situation. You will have 9 minutes. You must

write at least 100 words. You will be able to see how much time is left and how many words you have written. Write in complete sentences.

- Candidates are expected to answer all the questions within the stipulated time for each section.
- This assessment has a mix of Multiple-Choice Question (MCQ) type with options and non-MCQ type.
- For Non-MCQ type questions, enter in the answer in the space provided on the screen using the on-screen keyboard. The candidates are expected to type in their answers in whole numbers without using any symbols (e.g. %, kms, ms, ₹ etc.)

Programming Language	Version
C	4.9.2
C++	4.9.2
Java	1.8.0_171
PERL	5.6.2
Python	3.8.0

- There are two hands-on coding questions, with Easy and Medium difficulty level. Candidates are expected to solve both the questions in the given order.

- **Advanced Coding (Guidelines):**

- To solve hands-on coding questions candidate can use any one of the five programming languages given as under –
- Candidate will have to compile the code to check its correctness before submitting the code as a final response. It is mandatory to click “**Compile Code**” and “**Save Code**” the program for the program to be considered for evaluation.
- There are two public and five private test cases. Final marks will be calculated based on the number of private test cases passed.
- System does not allow any kind of hard coded input value(s). Code written by the candidate will be verified against the inputs which are supplied from the system.

- For any response to be saved, it must be submitted using “Submit” button on the bottom righthand corner of console.
